

Patient Room

In our experience, the **Continuum** (Part # 720), with options and accessories listed below, is Champion's most popular and preferred chair for patient rooms.

The Continuum carries weight up to 400 lbs.

Independent actuation release for back rest.

Independent release for foot rest.

Foot release trendelenburg. Built-in flexibility for treatment situations.

Lay-flat mechanism for patient or overnight guests.

Soft medical grade vinyl. Two-tone options available.

One swing away arm opens 135° at patient's left side for easy transfer and infection control.

Removable seat for ease of cleaning.

Overall **curved design** offers a warm and welcoming feel.
