

# H Dialysis

In our experience, the **Ascent** (Part # 650), with the options and accessories listed below, is Champion's most popular and preferred chair for dialysis care.

The Ascent carries weight up to 300 lbs. with a bariatric version (Part # 660) up to 500 lbs. available.

**Removable seat** for ease of cleaning.

Standard features such as 4" twin wheel casters, retractable foot tray and push handle are perfect for **patient transport**.

**Wall hugger** design for tight spaces and greater stability.

**Soft medical grade vinyl** (optional).

**Extra cushioning** in the seat and back for added comfort during long treatment hours.

**Wide arm surface** for starting IV, extra padding for patient comfort.

**Swing away arm(s)** open 180° for easy patient transfer and infection control.

## OTHER POPULAR DIALYSIS RECLINERS

**85 Series** (Part # 858) is Champion's tried and true workhorse for Dialysis seating. All steel construction for durability and modular design for easy repair and parts replacement make this chair a popular choice for dialysis.

**Passage** (Part # PS70) offers home-like styling to complement any décor. The soft profile of the Passage makes it a perfect fit for Home Training units, but Passage is equally at home on the chronic treatment floor.
