

Bariatrics

In our experience, the **86 Series (Part # 868)**, with the options and accessories listed below, is Champion's most popular and preferred chair for bariatric care.

The 86 Series carries weight up to 500 lbs.

Removable seat for ease of cleaning.

Standard features such as 5" casters, retractable foot tray and push handle are perfect for **patient transport**.

Wall hugger design for tight spaces and greater stability.

Soft medical grade vinyl (optional).

Wide arm surface for starting IV.

Swing away arm(s) open 180° for easy patient transfer and infection control.
