

# Infusion Therapy

In our experience, the **Ascent II Recliner** (Part # 670), with the options and accessories listed below, is Champion's most popular and preferred chair for infusion therapy.

The Ascent II carries weight to 300 lbs. with a bariatric version (Part # 680) of 500 lbs. available.

**Removable seat** for ease of cleaning.

Standard features such as 4" twin wheel casters, retractable foot tray and push handle are perfect for **patient transport**.

**Wall hugger** design for tight spaces and greater stability.

**Soft medical grade vinyl** (optional).

**Wide arm surface** for starting IV, extra padding for patient comfort.

**Swing away arms** open 180° for easy patient transfer and infection control.

**Extra cushioning** in the seat and back for added comfort during long treatment hours.
