

COMFORT THROUGH PATIENT CONVENIENCE

Empower patients and help keep them comfortable during long treatments by providing them a USB charging port built into their recliner. Conveniently located within patients' reach, the USB is easily accessible to power phones, tablets, e-readers and more.

Placed on the arm of the chair, the USB's location saves valuable table space. Each USB also comes with a protective rubber cover to help keep out dust, debris and liquids.

The USB port is able to be installed onto both manual and power chairs, with or without heat and massage systems to fit your unique needs.

To learn more about the USB port and to inquire about adding one to your next recliner, please speak with your local Champion representative.

| SPECIFICATIONS | WITH HEAT+MASSAGE SYSTEM | WITHOUT HEAT+MASSAGE SYSTEM |
