

This unique, fully-powered chair is complete with popular features requested by our customers. The Elevate responds to the desires and needs of caregivers and customers alike.

The lower seat height allows for easy entrance from the front of the chair, while moveable arms facilitate entry from the side as well as ease of lateral patient transfer. Vertical height adjustment is key for caregivers and the hand-held remote allows for ease of positioning, while the smaller footprint saves crucial floor space.

Additional clinical features of this chair include an emergency Trendelenburg positioning foot and handset button, a central-locking caster system, and battery backup.

MOTORIZED VERTICAL LIFT

The advantages of setting chair height for specific needs makes this chair truly multi-functional.

STANDARD FEATURES

- Emergency Trendelenburg positioning
- Motorized height adjustment
- Central-locking casters
- Articulating armrests
- Adjustable head pillow
- Rechargeable battery back-up
- Hand-held remote
- 3" dual thermoplastic casters

ARTICULATING ARMS

The wide, soft, and contoured armrests are designed for easy IV access and maximum patient comfort.

AUTOMATIC POSITIONING

Easy access into the Trendelenburg position with the tap of a button. Foot pedals lock or unlock casters efficiently.

FULLY POWERED

Multiple independent adjustment controls offer ease of positioning for medical staff.
