

OPERATING THE HEATER

Uncoil the power cord on the back of the chair and plug it into any properly grounded, standard wall outlet. You will find the heater power button on the table of the chair. This will typically be the right table (while seated in the chair) unless other options require it to be on the left side.

Pressing the button the first time will start the heater at low power and one light will come on. At this setting, it will take approximately 16.5 minutes to come to full heat **with an occupant in the chair**. Pressing the button a second time will take the heater to medium power (two lights on) and a third will take it to high (three lights on). To turn the heater off, press the button a fourth time and all the lights will be out.

HEAT BUTTON PRESS SEQUENCE

- 1** Lowest Heat

- 2** Medium Heat

- 3** Highest Heat

- 4** System Off

NOTE: The heat system is set to turn off 30 minutes after the last button press. Repeat the above process to continue use of the heat feature.

MESSAGE OPERATION

Uncoil the power cord on the back of the chair and plug it into any standard wall outlet. You will find the massage button on the table of the chair. This will typically be the right table (while seated in the chair) unless other options require it to be on the left side.

NOTE: The heat and massage options can be used independently of each other.

MESSAGE FUNCTION

The massage switch function is controlled by repetitively pressing the massage button. The first button push will turn on the massage light, and it will remain on through the button press cycle until the massage system is off.

NOTE: The massage system is set to turn off fifteen (15) minutes after the last button push. If the occupant wishes to continue using the massage, simply repeat the above steps.

MESSAGE BUTTON PRESS SEQUENCE

- 1** Lower Zone | Low Intensity
- 2** Lower Zone | High Intensity
- 3** Full Back | Low Intensity
- 4** Full Back | High Intensity
- 5** System Off
