

ARE YOUR RECLINERS IN NEED OF SOME TLC?

Champion's Product Support Team is here to help!
Steam Cleaning Treatments • Replacement Parts • Vinyl Restoration

KEEP YOUR CHAIRS WORKING SMOOTHLY AND LOOKING THEIR BEST

PREVENTATIVE MAINTENANCE CONTRACTS

Champion has created a program to protect and preserve the long-term value of your product to ensure optimal use and patient safety.

You can select the contract that best suits you for either annual or biannual maintenance, in addition to many other perks including:

- Discounted parts.
- Comprehensive in-servicing.
- Complete written fleet assessments by serial number.

DEEP CLEANING TREATMENTS

Deep cleaning through dry vapor steam technology, which combines the methods of dry heat and steam sterilization, will both clean and disinfect your recliners.

THE BENEFITS OF DRY VAPOR

- Optional chemical-free cleaning
- Deep penetrability
- Proven to kill bed bugs and dust mites
- Eradicates allergens
- Non-corrosive
- Loosens dirt
- Kills harmful bacteria and neutralizes odor

VINYL RESTORATION

If your vinyl is beginning to show signs of wear-and-tear, could use a little TLC, or if you are looking for a completely new color or pattern, you can choose to renew the vinyl on your Champion Recliner.

At 50% of your original acquisition cost, this service can be utilized in numerous ways, such as moving recliners to a new color scheme, color matching existing recliners, and reinforcing infection control.

REPLACEMENT PARTS & TECHNICAL SERVICES

Champion recliners are designed with modular construction, meaning all parts are replaceable on each recliner.

Every replaceable service part is available with detailed installation instructions for clinics interested in a do-it-yourself solution.

If you want to maximize staff productivity; Champion also has a fleet of over 60 certified technicians who are trained and ready to provide installation services.

Contact Champion to schedule a chair audit or steam cleaning, order replacement parts, and to learn more about the beneficial and cost-effective services our Product Support Team can offer your facility.
